

A Word from the Lord

A friend told us that the Lord had spoken to him about an imminent financial crisis. This word had first come to him in January 06.

At first he disregarded it but day after day it came to him with increasing urgency until it could no longer be disregarded. He “knew” that it would begin in the States as perhaps any economist could have guessed but also the housing market would be seriously affected. What it was that was to be so cataclysmic, he did not know, but whatever it was he knew that it was coming. He began to speak more openly about the coming financial crisis.

We all know the end of the story – it has happened. Our friend is profoundly grateful (an understatement) that he took the practical steps he did on the strength of this word from the Lord. A warning from the Lord does not mean that we are in every way protected. None of us are but we are more prepared.

We should listen and then heed when the Lord speaks.

May God's love

for you

strengthen you

today
